What's Your Owner Like?

Read the two speech bubbles.

Then color the toy bones according to the code.

Well, my owner's bedroom looks like a tornado hit it and then came back through a second time! Clothes and junk are everywhere. Yesterday I found a pair of dirty socks under the pillow. And don't blame me for all the spots on the carpet. My owner is always spilling drinks, fingernail polish, and makeup. She's too busy talking on her cell phone to notice that there's a mess on the floor! If she weren't always giving me extra hugs and pats, I'd move out of this mess and sleep in the laundry room!

Let me tell you, my owner never makes a mess. She's the neatest human I've ever seen! She spends hours organizing her closet and drawers. There's not one thing out of place in her room. If I move something even an inch, she notices right away and puts it back in its place. Sometimes I wish she weren't so serious about keeping things neat. But I can't complain. She gets up early every day to walk me, and she gives me yummy treats—just not in her room!
