

To solve the puzzle and find the hidden symbol, read the paragraph below. Then color the numbered spaces as directed.

San Francisco is perhaps the most beautiful city in the United States. May through October is the best time to plan a visit to this lovely bay side city. Sparkling blue water, a natural harbor, and steep hills give the city a unique charm. After visiting Fisherman's Wharf, one would surely want to take a ride on one of America's last operating trolley cars. For a panoramic view of the whole area, one may drive across the beautiful Golden Gate bridge. Continue driving through scenic Sausalito to Muir Woods National Monument.

If San Francisco is an ugly city, color the #3 spaces **black**.

If San Francisco is located on a bay, color the #1 spaces **purple**.

If the best time to visit San Francisco is winter, color the #7 spaces **orange**.

If San Francisco has a Fisherman's Wharf, color the #5 spaces **light blue**.

If you can travel by trolley in San Francisco, color the #2 spaces **lavender**.

If San Francisco has a man-made harbor, color the #8 spaces **green**.

If crossing the Golden Gate Bridge will give you a panoramic view of the area, color the #6 spaces **red**.

If there are no woods near San Francisco, color the #10 spaces **brown**.

If Sausalito is across the Golden Gate Bridge, color the #4 spaces **yellow**.

If San Francisco has steep hills, color the #9 spaces **pink**.
